

# PRODUCT DESCRIPTION

how the mini van and or regular van suv works  
just think  
the car was built  
but you have to order all the parts for the car engine  
if the car breaks down the person goes to the car  
dealership to  
have the engine rebuilt and or new engine the company  
either has that part or orders  
the part from an out side company (the manufacturer)  
the RV high costs of gas repairs insurance and parking  
the rv can not always  
be parked on the street but it can be parked in a person  
driveway taking up  
all the space

the mini van and or regular van has the advantage of its  
lower costs  
easier traveling gas repairs insurance hotel costs and  
park anywere you like  
but with the conversion it is a RV also they can park on  
any street or fit

the mini van and or regular van in there drive way also  
you can install these  
items right into a SUV too  
well the mini van and or regular van conversion  
the platform and cabinets are already built assembled and  
put together  
all that needed to be is installed and attach into the  
vehicle

NEW MINI VAN (VANS) OR OLD MINI VAN (VANS)

simple easy and fast charging a fee for the platform and  
cabinets and installation costs  
as simple easy and fast as if you were doing the wiring  
for the installation of a television  
or thoughing in an battery into a car  
a person can own a regular car but they will buy this mini  
van or  
regular van wheather it is NEW VAN OR OLD VAN for  
there travel  
so the platform bed has to be the sizes of the van to fit for  
easy installation

the cabinet is not a large cabinet but one that fits the small or regular refrigerator and water tank for hot and cold water

by placing the platform bed in the back of the mini van or regular van  
it gives the space to move around along with the cabinet as to the side of the van making sure the gives the open space right in the middle of the van  
the platform bed act as a lounge , sofa , chair cushions and bed  
the platform holds either one bed and or a couple of pull out beds for others  
to sleep the platform bed looks like a table with storage shefts and bed  
the platform bed can be a bed and shefts or a bed two shefts a couple

of pull out beds or a two beds and one sheft

a portable fold out table is easy to open and close when not used and then stored on the side or a shelf but has to be the level of the platform bed  
the part of the backing of the platform bed can be pillows cushion foam wood or no back just large pillows that can be removeable  
NEW SIZES FOR THE mattress air bed foam water bed to fit the VANS  
NEW TABLES OR COFFEE TABLE is a fold up table in what ever size small medium or large  
separate costs for these other items  
the holded up portable table can be purchased

a portable potty that comes and goes back into its a box  
can be purchased

a grill can be purchased

fold up chairs can be purchased

all these items are holded up items easly hold up that  
takes no room

in the mini van and or regular van they can fit right in a  
sheft or cabinet
