

SET OF FACTS

I personally introduced submitted and sent my product to a company

I personally sent my products to sell to companys under written contracts a Bill of Sale, a Confidential Agreement, a Product Description, a Copyrights, a Patents, a Designs, a Exhibits and a Trademarks Bidding Written Contracts enforceable by law

The company personally did not have this product in its inventory The company they did not have this product produce marketed distrituted manufactured or sold this produce on the market prior to my contracts I personally sent and introduced my product to the companies

after the company received my product then the company sat and looked at my product

The company took a further review of my product by analyzing it, researching it, searching it, marketing it, producing it, viewing costs of it, manufacturing it and selling of my product on the open market. Also the company researched my product of all the companies that would be interested in buying my product.

The company even took a further review of my products which was the costs to produce, manufacture and sell my product and how much money assets funds and profits the company would make off.

producing manufacturing marketing and selling my product on the open market

The company is still producing marketing manufacturing and selling my product

The company is still producing marketing manufacturing and selling my product for money funds assets and profits on the market to other companies
