

there is a little story on this hospital covers
as my daughter was in coney island in brooklyn new york having her baby
i looked at the bed she laid on then looked at the person cleaning the other bed
the bed was covered with dirt
in the hospital they do not take the hole bed out side the door of the hospital to
clean it
they just clean the top of the bed
oh by the way my grand son was born jovannie
that were i thought of the hospital covers to prevent hiv virus and deceases
this is a great way to prevent germs virus hiv and deceases
just think a person hands touch everything well what do we put in out mouths
our fingers etc our fingers touch our food our clothes germs can live for a long
time
i personally did a contract to sell this product hospital covers for all the beds
in nursing homes hospitals public and private nurses rooms at our schools day
care pre schools elementary schools high schools city colleges and universities
along with our companies were we are employed and work if they have a resting
area too
it would be good for RV VANS AND CARS too
i sent this product out to several companies
